## iDrones - Industrial Drones

**Unmanned Aerial System (UAS) Training**

Call for Participants:

**iDrone Services Limited** is a Zambian based start-up specialized in developing and providing drone solutions for agriculture, land use planning, surveillance, and mining. With its team of GIS analysts, researchers, and drone operators, that uses drones with advanced sensors and imaging capabilities.

**iDrone Services Limited** is launching a call for participation in a regional training on **“The Use of UAS in Agriculture, Mining, Construction and Urban Planning surveys.”**

This training is for individuals who want to get practical knowledge on:

- How to fly safely and responsibly different UAS platforms (fixed-wings and multi-rotors).
- How to choose the best sensor and platform for your aerial operations.
- How to collect, manage, and analyse data collected with the UAVs for use in Agriculture, Mining, Construction and Urban Planning surveys.

**Participant’s profile:** The training is open to professionals and students with backgrounds or field of expertise related to Agriculture, Mining, Construction and Urban Planning. Policymakers and business owners are also encouraged to apply.

**Date:** 4<sup>th</sup>- 8<sup>th</sup> June 2018

**Venue:** iDrone Services Training Centre  
401, Chimwala Rd, St. Bonaventure, Makeni area, Lusaka, Zambia

**Conditions:** The training will be conducted in English. Participation in the training costs K5,550 (USD\$555) for professionals and K2,750 (USD\$275) for students. Accommodation, travel costs, and meals are not covered. We also offer a \$1,200 package, that includes accommodation and meals. Applicants will be selected on a first come basis and limited to a maximum of five participants.

**Note:** iDrone Services is approved by Zambia Civil Aviation Authority (ZCAA) for commercial operations in Zambia and we will assist and guide all participants for their CAA licence approvals.

**How to apply:** Please apply through the application form link [here](#) or the online form at: <http://idrone4ag.org>  
Deadline for submitting applications: 1<sup>st</sup> June 2018
